HOW TO USE THIS TEMPLATE

1 Fill in your expected revenue for each month. Add any bank lending amounts below "Other revenue".

2 Fill in your expected or known outgoings for each month.

You can add to the suggested cash payments titles for any costs not listed in these examples.

3 Enter the amount of cash in the bank at the opening month.

4 The cash flow tool will calculate the totals for you, including opening and closing balances for each month.

Once complete, this will show you how much cash you have coming in and going out of the business each month and can be a good indicator of the need for an overdraft or other lending.
